

I do not want LPFM to take priority over FM translator service. My favorite listener-supported radio station, (which I support financially) K-Love would be negatively affected. It is one of the only stations that is truly family friendly. I don't have to worry about my kids hearing anything I wouldn't approve of. I can't say that about any other stations available here. Mainly because when you have advertising, you never know what the advertising is going to be for or what they might say. I believe it's in the best interest of the public to keep this and other type FM translator services available so that we have good choices for our family. The fact that K-Love is a national station is wonderful! To know that my friends and family around the country are listening to the same station as me, at the same time is fantastic! It gives us a sense of not being so far apart. Please don't do anything that would cause K-Love to go off the air. It gives a positive and encouraging message to so many that need to hear it. Thank you.
